

## ISO CALCIUM GREASE

### DESCRIPTION

High quality mineral grease with Calcium base and light color, which provides, excellent and extended greasing, advanced properties of adhesiveness and endurance from washing. Ca-3 is NLGI-3, Ca-2 is NLGI-2 and Ca-00 is NLGI-00 and the working temperature is from -15°C till +120°C.

### APPLICATIONS

- Highly resistant to water
- Good protection for highly- stressed bearings subject to contact with water & can be applied in moist areas.
- Provides good protection to parts against wear, corrosion & rusting.
- Improved pump ability makes the application easier.

### PACKING

1 & 3 & 4.5 & 15 & 180 KG

### TYPICAL VALUES

Properties			
	1	2	3
NLGI Grade	1	2	3
Dropping point 40°C	95	95	95
Texture	Buttery	Buttery	Buttery
color	Yellowish	Yellowish	Yellowish
