

## ISO LITHIUM EP GREASE

### DESCRIPTION

*EP Lithium base grease with high quality additives for ultimate resistance in extreme pressure and from wash off. It is recommended for long lasting greasing even in outdoor usage. Thermal functions from -20C till 140C, while EP Li-3 is class NLGI 3 and EP Li-2 is class NLGI-2.*

### ADVANTAGES

- Protection under heavy load & extreme pressure conditions.
- Suitable for lubrication of bearings running at higher temperatures.
- Protects against wear & corrosion, loading service periods.
- Increase the life of bearing, slide-bearings, axles & joints.
- Can be used for the lubrication of electro motors, ventilators, etc

### PACKING

100, 250, 450, 900 Gr & 4.5, 15, 180 Kg

### TYPICAL VALUES

Properties			
	1	2	3
NLGI Grade	1	2	3
Dropping point 40°C	185	190	192
Texture	Smooth	Smooth	Smooth
color	Brown	Brown	Brown
Penetration at 25°C	310-340	265-295	220-250
Soap type	Lithium	Lithium	Lithium
temperature range °C	-20 to 130	-20 to 135	-10 to 140
Timken ok load, lb	45+	45+	45+
